## Welcome

Raffles University (RU) is an exciting young University that delivers practice-based programmes and implements state-of-the-art teaching methods. This is supported by a culture that promotes:

- › Social responsibility
- › Professional excellence for employability
- › Analytical thinking for problem solving
- › Creativity to encourage innovation
- › Entrepreneurship

All our students leave as young professionals, ready for industry and the workforce. We have a 98% graduate employment rate. 12% of our graduates have started their own businesses.

You can expect a vibrant and dynamic nurturing learning experience that will see your transformation into a world-class professional.

I hope you will choose to study at RU and look forward to meeting you on campus.

**Associate Professor Greg PRITCHARD**  
President

Raffles University (RU) is a University of the Future. We are at the cutting edge of higher education in both teaching and learning and business practices. Our innovative and stimulating programmes promote doing while learning and learning while doing.

Raffles University (RU) is a joint venture between the Malaysian Government (through Edacity Iskandar Malaysia Sdn. Bhd.) and Raffles Education Corporation (REC), a multi-national, educational company. REC was invited to be a partner in Edacity because of our international expertise and reputation in design education.

**Malaysia is a vibrant melting pot of race and religion, where people of different cultures live side by side harmoniously.**

One of the many things to love about Malaysia is its diverse geographical landscape that changes from state to state. For instance, in Kuala Lumpur you will find a modern city bustling with life, home to skyscrapers occupied by many multinational companies. In east coast states like Pahang and Terengganu, you will be able to enjoy cool climates of the hilly Cameron Highlands, or walk along beautiful stretches of beaches that face the South China Sea, while in northern states of Malaysia such as Perlis or Kelantan, you will be able to witness stunning sceneries of green paddy fields, mangroves, and see "kampung" or village houses that belong to hardworking farmers and their families.

Malaysia is home to citizens of Malay, Chinese, Indian and indigenous races, Malaysia is known for being welcoming, warm, and very accepting of people from all walks of life. As a multi-cultural country, Malaysia is known for its people's ability to speak several languages including Malay, English, Mandarin, Cantonese and Tamil. Students will find that they can easily communicate with locals.

**Experience a wonderful mix of culture, tradition, nature and gastronomy at the hub of South East Asia.**

01 **Mount Kinabalu**

Mount Kinabalu, the highest mountain in South East Asia, is located in Sabah, Malaysia.

02 **Heritage Buildings**

Penang is known for its many heritage buildings with stunning architecture.

03 **Perfect Holiday**

Surrounded by the South China Sea, the Malacca Straits and the Andaman Sea, Malaysia offers beaches with crystal clear waters and beautiful white sands, perfect for a holiday getaway.

04 **Historic Culture**

Travel to Malacca and learn how the Dutch and Portuguese influences still play a role in the local culture.

05 **Food Paradise**

Being a multi-cultural society, food plays a big role in the everyday life of Malaysians. From steaming nasi lemak wrapped in banana leaves, to wok fried char kuay teow from hawkers, a variety of food is readily available to satisfy your cravings.

Whether you are checking out local high end restaurants or the weekly "pasar malam" (night markets) you will definitely discover food to make your taste buds go wild.

# REASONS TO LOVE JOHOR

**A vibrant state, shaped by its culture, history and the beauty of its landscapes, Johor has much to offer anyone that comes its way.**

## 01 Rich culture and history

The influence of the Malay, Chinese and Indian cultures play a large role in the daily lives of Johoreans, from the languages they speak to the festivals they celebrate. Johor is renowned for its vibrant celebration of Chinese New Year, Chingay, Deepavali and Hari Raya, where you can see spectacular displays of fireworks, costumes, singing and dancing and try local delicacies.

## 02 Beautiful islands and beaches

Johor is known for pristine waters with islands that face the South China Sea. Take a trip to Pulau Sibul and Pulau Aur where you can rent chalets, walk across the beautiful beaches and take part in watersport activities like jet skiing, banana boating, and kitesurfing. These islands are also a perfect place for diving and snorkelling in the crystal clear waters where you can swim amongst the marine life.

## 03 Nature and wildlife at its best

Johor is also home to some of the most beautiful parks and forests in Malaysia. The Endau-Rompin National Park holds one of the oldest rainforests in the world and is home to wildlife and plants only found in this region. Within its dense forests there is also a community of Orang Asli or native tribes that have lived as one with nature for generations.

## 04 Stunning Architecture

One of the most beautiful things to see in Johor is its mix of old and new architecture. Some examples are the Tan Hiok Nee heritage street, the Dataran Bandaraya and its clock tower, the Sultan Ibrahim building, and the Sultan Abu Bakar State Mosque. The cultural heritage is reflected in the architecture.

## 05 Proximity to Singapore

The development of the transportation system has resulted in affordable and convenient travel between Malaysia and its neighbour Singapore. Students can easily travel to Singapore to attend shows, exhibitions and conferences, and just to have fun.

# › MEDINI CAMPUS ADVANTAGE

**The Medini Campus is located in Medini City, the core developing area in Johor, Malaysia. The building of RU Medini Campus is awarded MSC Status by the Ministry of Communications and Multimedia Malaysia. Various technology has been implemented within the structure to achieve the status.**

RU Medini Campus is located at Medini 7, Iskandar Puteri. The campus has a total Gross Floor Area (GFA) of approximately 144,000 square feet. The campus will also be furnished with the essential facilities of RU such as ID studio, student lounge, sewing room, etc. In addition, new facilities such as Artificial Intelligence (AI) Lab and Digital Game lab will be set up at the RU Medini Campus.

## › Be part of the community

In Raffles University's culture, we proactively look for the opportunity of local events, entrepreneurs and companies to collaborate with students for better exposure to industry insight. With the RU Medini campus, we expect higher exposure to the nearby community with the neighbouring township, including Medini City, Harbour Puteri, EduCity, etc. RU students will have various opportunities to be part of a young and enthusiastic community.

## › A step towards technology community

The Medini Campus is located in Medini City, the core developing area in Johor, Malaysia. The building of RU Medini Campus is awarded MSC Status by the Ministry of Communications and Multimedia Malaysia. Various technology has been implemented within the structure to achieve the status.

## › A comprehensive student life at educity

Educity is the first township with multi education institutions. EduCity provides comprehensive services such as Student Village Accommodation, EduCity Sports Complex and Student Hub to ensure the students studying at Educity area is equipped with facilities and social experience.

› Discover more

# > LIVING IN JOHOR

## > Quality Student Accommodation

Students can expect to have safe, convenient and well-equipped accommodation that will fulfil their everyday needs. From free Wi-Fi, swimming pools, gym facilities to dining and living room facilities. The accommodation is also close to cafes, restaurants, parks, convenience stores and shopping outlets, which means students will have a wide range of options for food, study and leisure. You will need to let us know that you need RU student accommodation placement.

### Let's Get You Settled In

We understand that it can be hard to move away from family and friends. This is why we aim to make your transition as smooth and comfortable as possible.

**Live, study, and make new friends in accommodation that has access to everything you need for a great university life experience.**

# › SUCCESS STORIES

## › Best Internship Award

Raffles University Student from Bachelor of Business Administration (Honours) - Daljit Singh, received the Best Internship Award at Aito Firework Holding Sdn Bhd.

## › Daikin Youth Design Competition 2020

Raffles Interior Designers, Clary AH Yi Ning (top) and LEE Sheau Wen (bottom) was selected as the Top 10 Finalist and Clary AH Yi Ning won the Most Famous Award in the competition with her portfolio - Shadow House!

## › LINBAQ Media Competition

Raffles University's multidisciplinary students team consisting of Goh Chin Peng (BBA), Chan Jia Minh (BAC), Cheah Min Qi (BMD) and Lim Miao Ling (BPY) won the First Prize in LINBAQ F&B Business Model Transformation Proposal Competition. The competition was held by LNBAQ Holding and Sin Chew Media Corporation Berhad for all current university students to create business model transformation proposals for local businesses.

## › Winner in Sakura Collection 2020

Raffles Fashion Designer - Au Jie Min won the 4th prize in the Sakura Collection Asia Student Awards in Malaysia 2020!

## › High Potential Award In Ipsmart "Create" 2019

Raffles University Designers Nur Afiqah binti Ismail (BFD) and Cheah Min Qi (BMD)'s "Momma Bear" project won the High Potential Award in the 54 hour weekend hackathon at the Startup Weekend Iskandar Puteri | IP SMART "CREATE" 2019.

# GRADUATE FASHION WEEK

## › London Graduate Show 2019

Raffles University was honoured to be the only Malaysian higher education institution invited to participate in the prestigious Graduate Fashion Week that was held from 2nd - 5th June 2019 at Truman Brewery, London, UK.

# GRADUATE FASHION WEEK PRESENTS... INTERNATIONAL FASHION AWARD SHOW

Our graduate, Nuradilah Afiqah Binti Ab Hamid from Bachelor of Fashion Design (Honours), was selected to represent Raffles University to showcase the collection of her final year project - "Boundless of Human" at the International Catwalk Show of the Graduate Fashion Week.

# › SUCCESS STORIES

## › Ignite Showcase 2019

Raffles University successfully 'ignites' the creativity, talent and passion of the Johor Bahru Community! In the 3-day event, RU's IGNITE Showcase was held at Paradigm Mall Johor Bahru from 18th to 20th October 2019. The IGNITE Showcase was a significant milestone of Raffles University as it was the very first public student showcase in the JB community.

Over 90 masterpieces that were created by Raffles Designers had successfully walked on the stage of the IGNITE Fashion Runway Show.

3 awards and competitions were presented: Raffles International Avant Garde Fashion Award, Raffles Recycled Furniture Design Award and Raffles Figurative Art Competition. These competitions attracted many local and international talents.

On top of this, Raffles University prepared several workshops in the IGNITE Showcase for the public to participate.

- › Business stock trading competition
- › VR & cognitive game
- › AI and robotics workshop
- › String art workshop
- › T-shirt printing workshop
- › English language carnival

IGNITE Showcase had 4 objectives:

- › to showcase Raffles students' works,
- › to stimulate teenagers' creativity,
- › to promote tertiary education channel and
- › to encourage lifelong learning.

## › Digital Marketing Masterclass

Raffles University held a 2-day Digital Marketing Masterclass on 24-25 February 2020. The masterclass was aimed to enable our industry partners to cultivate digital marketing skills including Search Engine Optimisation (SEO), Paid Advertisement and others.

## › MIID Seminar and Workshop

5 Raffles Interior Designers attended the Malaysian Institute of Interior Designers (MIID)'s Seminar & Workshop to learn the best way to present their works visually and verbally with consideration of composition and content.

## › Base Conference

Raffles Students - Jasraj Singh (BBA), Kevin Ng Yong Aun (BBA), Cheah Min Qi (BMD), Nur Afiqah Binti Ismail (BFD), Amirah Fatin Binti Mohd Hatta (BAC), Aktshara A/P Balasuperminam (BAC), Shane Andrew Jeevan (BBA) and Goh Chin Peng (BBA) were sponsored to participate in the Base Conference 2020 powered by Techsauce Global Summit that was held from 15th to 16th January 2020 to expand their insights on business knowledge, startups and innovation trends for 2020.

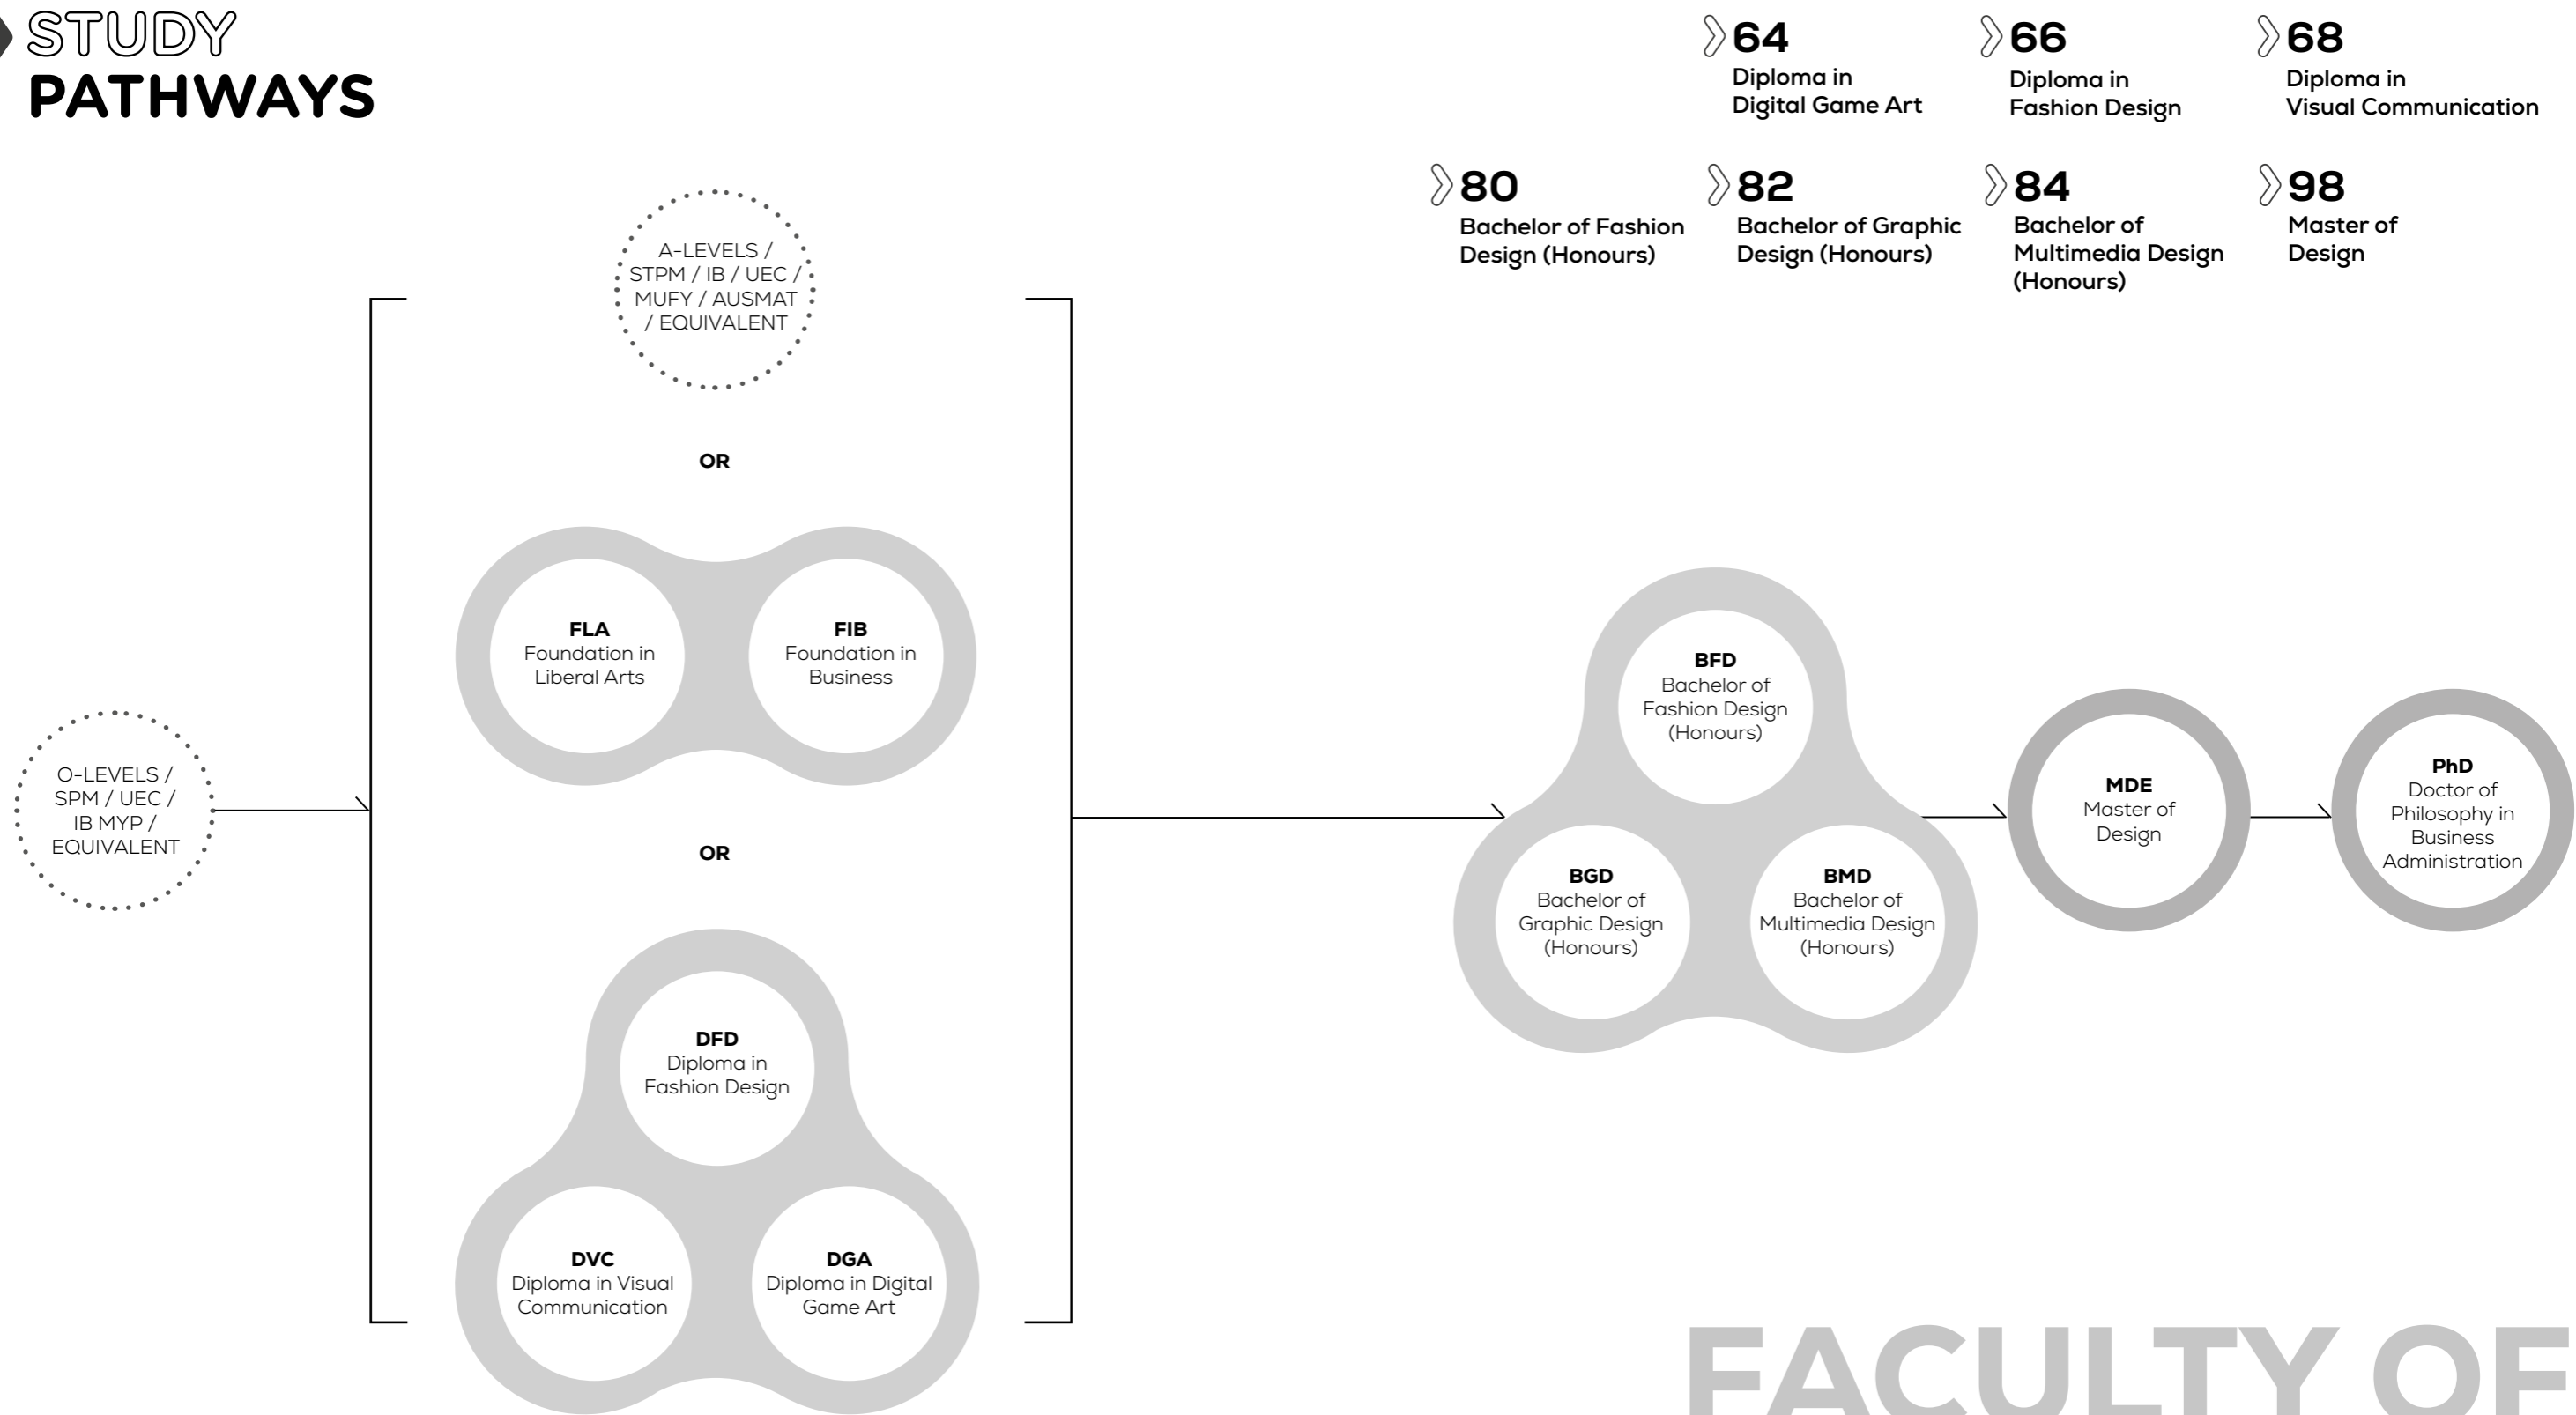

## › Cross-cultural Psychology Study at Macau

Raffles Students from Bachelor of Psychology (Honours) visited Macau for a 4D3N cross-cultural psychology study. The topic of this study trip was - "Diversity creates meaning of life". In this project, there would be 4 groups of students choosing a type of lifestyle across at least two (2) culture to discuss:

- › The meaning of this lifestyle in each of the culture.
- › The local attitude toward this lifestyle.
- › Compare and explain these two lifestyles with theories in cross-cultural psychology.

LEADER

*The programme covers both oral and written components with an emphasis on English for Academic Purposes. A systematic build-up of teaching and learning strategies enable learners to develop a sound foundation in English.*

## › CONCURRENT ENGLISH LANGUAGE PROGRAMME (CELP)

(Malaysian Students)

**Programme Length**  
12 Weeks

**Course Outline**

- › Academic Writing
- › Academic Research & Referencing
- › Communication

**Intakes**  
January, May and September

Raffles University's Concurrent English Language Programme (CELP) is a course that enhances students' English Language skills for their university-level programmes taught in English.

The programme covers communication, reading and writing components for academic purposes. It is conducted concurrently with the main program to support students' learning.

**Entry Requirements / Suitable for**  
Students who did not meet RU English Requirement.

## › ENGLISH PREPARATION PROGRAMME (EPP)

(Malaysian and International Students)

**Programme Length**  
12 Weeks

**Course Outline**

- › Listening
- › Speaking
- › Reading
- › Writing

**Intakes**  
January, May and September

The English Preparation Programme (EPP) is a programme designed to prepare students in English for tertiary education. It aims to equip students with the necessary language skills for the tertiary education system. This course is also designed to prepare students for international English equivalent examinations such as Linguaskill, IELTS, TOEFL, and so on, enabling students to meet the language entry requirements for many higher education institutions worldwide.

The programme covers four components: listening, speaking, reading and writing for social and academic purposes.

**Entry Requirements / Suitable for**  
International or local students to meet the English entry requirement in higher education institutions.

Local students to enhance English proficiency.

## FOUNDATION IN LIBERAL ARTS

### Programme

**Code**  
MQA/FA 1723  
KPT/R2/010/3/0072  
(05/2027)

### Duration

1 Year  
(Full Time)

### Intakes

January, May  
and September

The Foundation in Liberal Arts programme exposes students to a range of topics in the humanities so that they can appreciate the depth and subtlety of human nature and experience. Students completing the Raffles University Foundation are well placed to enter the degree programmes in their respective disciplines. Emphasis is placed on communication and study skills because these are essential for professional practice after students graduate from their degree programmes, as well as assisting them to successfully complete their studies.

### Study Opportunities

The Foundation programme prepares students for entry into their chosen bachelor degree.

### Programme Outline

#### Year 1

- › Learning Studies
- › Introduction to Professional Ethics
- › Introduction to Critical Thinking
- › Introduction to Multimedia and Web Design
- › Information Technology
- › Introduction to Business Studies
- › Creative Problem Solving
- › History of Art and Culture
- › Elective
- › Professional Communication
- › Introduction to Drawing and Sketching
- › Practical Mathematics
- › Introduction to Programming

#### Elective Modules

- › Design Fundamentals
- › Introduction to General Psychology

*Please note that the programme outline is subject to change.*

# RU THE NEXT PSYCHOLOGIST

## › DIPLOMA IN PSYCHOLOGY

### Programme Code

MQA/FA 11906  
KPT/N/311/4/0116  
(10/2024)

### Duration

2 Years  
(Full Time)

### Intakes

January, May  
and September

The Diploma in Psychology programme aims to provide students with knowledge, practical skills and understanding in psychology at the fundamental level. The programme will prepare students to apply their learning in various work setting related to psychology as well as for academic development. Students will be trained to demonstrate the application of psychology knowledge interpersonally, in teamwork and an organisation.

### Career Opportunities

Psychology Research Assistant, Psychology Researcher Officer, Marketing Executive, Customer Service Executive, Teaching Assistant, Human Resource Executive.

### Programme Outline

#### › Year 1

- › Academic Writing
- › Academic Reading
- › English for Communication
- › Introduction to Psychology: Methods and Social Learning Skills
- › Gen-AI for Design Exploration
- › Introduction to Psychology: Cognition and Abnormal
- › Historical Perspectives of Psychology
- › Statistics
- › Teamwork and Leadership/ Bahasa Kebangsaan A
- › Critical Thinking
- › Child and Infants Psychology
- › Research Method in Psychology
- › Emotion and Motivation

#### › Year 2

- › Fundamentals of Social Psychology
- › Introduction to Counselling and Psychotherapy
- › Psychology of Adolescent and Adulthood
- › Introduction of Biological Psychology
- › Ethics Appreciation and Civilisation / Malay Language Communication 1
- › Psychology of Learning
- › Cognitive Psychology
- › Personality
- › Integrity and Anti-Corruption
- › Gerontology
- › Abnormal Psychology
- › Industrial and Organisational Psychology
- › Business Portfolio

*Please note that the programme outline is subject to change.*

## › DIPLOMA IN DIGITAL GAME ART

### Programme

**Code**  
MQA/FA 11780  
KPT/R/0211/4/0025  
(10/2029)

### Duration

2 Years 4 Months  
(Full Time)

### Intakes

January, May  
and September

The Diploma in Digital Game Art aims to cultivate students to be skilful game designers equipped with relevant theory and practical skills. Throughout the programme, students will experience every level of game development from initial design to production. By the end of the programme, students will be able to create game content for multiple game applications, including serious or casual games and mobile games, by utilising industry-standard tools and software.

### Career Opportunities

Game Programmer, Game Artist, Animator, Game Designer, Lead Designer, Concept Artist, Creative Producer, Animator, Game Developer, Gamer, Digital Artist.

### Programme Outline

#### › Year 1

- › Academic Writing
- › Academic Reading
- › English for Communication
- › Foundation Sketching and Drawing for Designers
- › Critical Game Studies
- › Ethics Appreciation and Civilisation / Malay Language Communication 1
- › Game Design Principles
- › Gen-AI for Design Exploration
- › Creative Programming
- › Teamwork and Leadership/ Bahasa Kebangsaan A
- › Fundamentals of Typography
- › 3D Modelling
- › Storyboard & Art Direction

#### › Year 2

- › Integrity and Anti-Corruption
- › User Interface Design
- › Character Design and Development
- › Rigging and 3D Animation
- › Law for the Creative Industries
- › Asset & Environmental Visualisation
- › Game Level & Logic Design
- › Audio Visual Compositing
- › Game Production
- › Game Project Management
- › Portfolio
- › Final Project
- › History of 20th Century Design & Culture

#### › Year 3

- › Internship

*Please note that the programme outline is subject to change.*

# RU THE NEXT FASHION DESIGNER

## › DIPLOMA IN FASHION DESIGN

### Programme Code

MQA/FA 11904  
KPT/R/0212/4/0030  
(10/2029)

### Duration

2 Years  
(Full Time)

### Intakes

January, May  
and September

The Diploma in Fashion Design programme aims to provide students with broad-based knowledge and advanced skills. Students will be exposed to entrepreneurship skills, visual expression, creativity and innovation as well as professional communication in fashion design. Students will be trained for Fashion Drafting, Fashion Draping and Sewing Techniques in order to create their garments by the end of the programme. Students will also be able to apply operational and entrepreneurial skills to perform professionally and ethically in fashion design.

### Career Opportunities

Junior Fashion Designer, Junior Fashion Illustrator, Stylist Assistant, Junior Textile Designer, Design Room Assistant, Fashion Merchandiser, Personal Shopper, Fashion Photographer, Fashion Retail Assistant.

### Programme Outline

#### › Year 1

- › Academic Writing
- › Academic Reading
- › English for Communication
- › Fashion Drawing
- › Colour Theory
- › Ethics Appreciation and Civilisation / Malay Language Communication 1
- › Fiber and Textiles
- › Garment Composition
- › CAD for Fashion Design
- › History of Costume
- › Fashion Draping 1
- › Women's Wear Drafting 1
- › Sewing Techniques 1

#### › Year 2

- › Women's Wear Drafting 2 and Presentation
- › Fashion Draping 2 and Presentation
- › Sewing Techniques 2
- › Fashion Illustration
- › Production Workshop
- › Fashion Design, Research and Development
- › Gen-AI for Design Exploration
- › Integrity and Anti-Corruption
- › Entrepreneurship and Small Business Operation
- › Teamwork and Leadership / Bahasa Kebangsaan A
- › Digital Photography
- › Final Project

Please note that the programme outline is subject to change.

## › DIPLOMA IN VISUAL COMMUNICATION

### Programme

**Code**  
MQA/FA 4739  
KPT/R2/0211/4/0122  
(07/2029)

### Duration

2 Years 4 Months  
(Full Time)

### Intakes

January, May  
and September

The Diploma in Visual Communication gives students the theoretical and practical design knowledge and skills needed to become professionals in the graphic design industry. Students hone their capabilities in devising creative and practical solutions through studio-based learning projects, combined with critical thinking, conceptualisation and computer software skills.

### Career Opportunities

Graphic Designer, Brand Identity Designer, Print and Publication Designer, Packaging Designer, Wayfinding System Designer.

### Programme Outline

#### › Year 1

- › Academic Writing
- › Academic Reading
- › English for Communication
- › Foundation Sketching and Drawing for Designers
- › History of 20th Century Design and Culture
- › Ethics Appreciation and Civilisation / Malay Language Communication 1
- › Design Principles
- › Gen-AI for Design Exploration
- › Digital Image Processing
- › Teamwork and Leadership/ Bahasa Kebangsaan A
- › Storyboard & Art Direction
- › Fundamentals of Typography
- › Digital Photography

#### › Year 2

- › Digital and Applied Illustration
- › Wayfinding System Design
- › Creative Techniques
- › Publication Design
- › Video & Motion Graphic
- › Packaging Design
- › Web Design
- › Identity System Design
- › Integrity and Anti-Corruption
- › Creative Portfolio Design
- › Final Project

#### › Year 3

- › Internship

*Please note that the programme outline is subject to change.*

# RU THE NEXT INTERIOR DESIGNER

## › DIPLOMA IN INTERIOR DESIGN

### Programme

**Code**  
MQA/FA 4738  
KPT/R2/0212/4/0024  
(06/2024)

### Duration

2 Years 4 Months  
(Full Time)

### Intakes

January, May  
and September

The Diploma in Interior Design is industry focused and relevant to the workplace. The curriculum is aimed at developing creative and technical skills through project based learning. This program promotes knowledge and skills through project work and advances the students' thinking through the development of a personal research capability.

### Career Opportunities

Interior Designer, Furniture Designer Assistant, Junior Commercial Space Designer, Interior Design Illustrator, Design Consultant Assistant, Junior Landscape Planner, Event/Exhibition Designer.

### Programme Outline

#### › Year 1

- › Academic Writing
- › Academic Reading
- › English for Communication
- › Foundation Sketching and Drawing for Designers
- › Gen-AI for Design Exploration
- › Interior Design Principles and Theory
- › Interior Presentation Techniques
- › Architectural Drafting
- › Ethics Appreciation and Civilisation / Malay Language Communication 1
- › Interior Design Studio 1 (Anthropometric and Ergonomics)
- › History of Modern Design and Architecture
- › Computer Graphic Skills

#### › Year 2

- › Teamwork and Leadership/ Bahasa Kebangsaan A
- › Interior Design Studio 2 (Residential)
- › 2D Computer Aided Drawing
- › Interior Colour Application
- › Integrity and Anti-Corruption
- › Interior Design Studio 3 (Commercial)
- › Introduction to Furniture Design
- › Building Construction and Services
- › 3D Computer Aided Drawing
- › Major Studio Project
- › Working Drawing in Interior Design
- › Interior Materials and Finishes
- › Introduction to Professional Practice

#### › Year 3

- › Internship (14 weeks)

*Please note that the programme outline is subject to change.*

## › DIPLOMA IN INFORMATION TECHNOLOGY

### Programme

**Code**  
MQA/PA15623  
KPT/N/0611/4/0011  
(07/2027)

### Duration

2 Years 4 Months  
(Full Time)

### Intakes

January, May  
and September

The Diploma in Information Technology is offered to cultivate the Information Technology (IT) generation to fit the rapid growth of the IT industry and to fulfil the high demand for its professions in Malaysia and ASEAN in the coming years. The programme aims to provide students with fundamental knowledge, practical application, and problem-solving skills to perform as effective Information Technology practitioners. The students will be able to develop the ability to apply information technology knowledge and skills in analysing, designing and developing information technology solutions.

### Career Opportunities

Data Analyst, Data Scientist, Software Developer, Application Developer, Information Security Analyst, Digital Transformation Specialists, Systems Administrator, Applications Programmer

### Programme Outline

#### › Year 1

- › Principles of Computer Programming
- › Statistics
- › Computer Organisation and Architecture
- › System Analysis and Design
- › Discrete Mathematics
- › Operating Systems
- › Databases
- › Calculus and Algebra
- › Data Communication
- › Computer Security
- › Information Technology Essentials
- › Object Oriented Programming

#### › Year 2

- › Computer Networks
- › Web Programming
- › Cloud Computing
- › Elective
- › Mobile Applications Development
- › Ethics and Professional Practice in Computing
- › Internet of Things
- › Integrity and Anti-Corruption
- › Operating Systems
- › Project
- › Ethics Appreciation and Civilisation/ Malay Language Communication 1
- › Teamwork and Leadership/ Bahasa Kebangsaan A
- › UI / UX Design

#### › Year 3

- › Professional Attachment

#### › Electives

- › Digital Image Processing
- › UI/UX Design
- › Entrepreneurship and Small Business Operation
- › Business Portfolio
- › Gen-AI for Design Exploration
- › Digital Photography
- › Psychology of Learning

*Please note that the programme outline is subject to change.*

# RU THE NEXT AI EXPERT

## › BACHELOR OF INFORMATION SYSTEMS IN ARTIFICIAL INTELLIGENCE (HONOURS)\*

### Programme

#### Code

MQA/FA 12436  
KPT/N/482/6/0194  
(02/2025)

### Duration

3 Years  
(Full Time)

### Intakes

January, May  
and September

Our Bachelor of Information Systems (Honours) in Artificial Intelligence aims at cultivating Artificial Intelligence (AI) practitioners with the ability to apply fundamental in mathematics, logic and theoretical AI knowledge for analysing, modelling, designing, developing, and evaluating AI solutions. The programme exposes students to knowledge of artificial intelligence, including but not limited to neural networks, computer vision, and natural language processing. Through our exclusive industry network, students engage in real-world projects to enhance their practical skills. This immersive experience equips graduates not only with theoretical knowledge but also practical expertise, ensuring they excel in the dynamic field of Artificial Intelligence.

### Career Opportunities

AI Specialist, Software Analysts and Developers, Machine Learning Researcher, Data Scientist, Algorithm Specialists, Business Intelligence Developer, Big Data Architect.

### Programme Outline

#### › Year 1

- › Information Technology Essentials
- › Principles of Computer Programming
- › Discrete Mathematics
- › System Analysis and Design
- › Critical Thinking
- › Computer Organisation and Architecture
- › Databases
- › Operating Systems
- › Algorithms
- › Web Programming
- › Computer Networks
- › Mobile Applications Development
- › Human Computer Interaction
- › Neural Network Basics
- › Ethics Appreciation and Civilisation / Malay Language Communication 2

#### › Year 2

- › Software Engineering
- › Data Processing and Visualisation
- › Philosophy and Current Issue
- › Statistics for Artificial Intelligence
- › Deep Learning Fundamentals
- › Computer Security
- › Object Oriented Programming
- › Creative Thinking / Bahasa Kebangsaan A
- › UI / UX Design
- › Artificial Intelligence Methods
- › Ethics and Professional Practice in Computing
- › Applied Computer Vision
- › Intelligent Agents Design
- › Natural Language Processing

#### › Year 3

- › Project I
- › Entrepreneurship and New Business Development
- › Knowledge Representation
- › Deep Neural Network Architectures
- › Integrity and Anti-Corruption
- › Project II
- › Parallel and Distributed Computing
- › Elective 1
- › Professional Attachment

#### › Electives

- › Marketing
- › Fundamentals of Management
- › Business Communication
- › Emotion and Motivation
- › Cyberpsychology
- › Introduction to Multimedia Technology
- › Game Design

Please note that the programme outline is subject to change.

(Full Time)

### Intakes

January, May  
and September

The Bachelor of Information Technology (Honours) is meticulously crafted to address the evolving demands of the Information Technology (IT) industry. This specialised programme encompasses a broad spectrum of knowledge areas, including software engineering, human computer interaction, cybersecurity, cloud computing, internet of things, and information system technology, among others. Through a comprehensive curriculum, students delve deep into these essential domains, acquiring in-depth expertise and practical skills. The programme is designed to nurture well-rounded professionals capable of navigating the complex IT landscape with confidence. Upon completion, graduates emerge equipped not only with a deep understanding of cutting-edge technologies but also with the adaptability and innovation necessary to thrive in the ever-changing IT industry.

### Career Opportunities

Technical Support Specialist, IT Project Manager, Database Administrator, Network Architect/Administrator, System Security Analyst, Cyber Security Specialist, Database Technician, Network Support Coordinator, Software Programmer, Data Centre Technician

# ➤ BACHELOR OF COMPUTER SCIENCE (HONOURS) IN DATA SCIENCE\*

## Programme

**Code**  
MQA/PA 14280  
KPT/N/481/6/0830  
(06/2026)

## Duration

3 Years  
(Full Time)

## Intakes

January, May  
and September

The programme aims to cultivate data scientists equipped with the latest advancements in the computer science industry and research. The programme also seeks to nurture academics with core competencies needed in both computer science and data science. Designed for aspiring data scientists, the curriculum combines fundamental technology principles with advanced topics such as neural networks and data mining. Students will acquire essential skills in advanced statistical analysis and its applications, including Stochastic Analysis, Bayesian Statistics, Experimental Design, Data Analytics, and Time Series Analysis and Forecasting.

## Career Opportunities

Computer Scientist, Data Scientist, Software Developer, Software Engineer, Systems Engineer, Network Engineer, Web Developer, Computer Network Architect, Technical Writers, Data Science Expert

## Programme Outline

### Year 1

- › Information Technology Essentials
- › Principles of Computer Programming
- › Discrete Mathematics
- › System Analysis and Design

## › BACHELOR OF FASHION DESIGN (HONOURS)\*

### Programme

#### Code

MQA/FA 2200  
KPT/R/214/6/0067  
(03/2025)

#### Duration

3 Years  
(Full Time)

#### Intakes

January, May  
and September

The Bachelor of Fashion Design introduces budding fashion designers to the fundamentals of fashion and more. Students will learn how to utilise textile technology, familiarise themselves with a fashion designer's studio and develop their fashion senses with design theories. In the studio, a competent fashion designer is expected to be able to create anything from casual wear to haute couture. The fashion designer needs to know how to sketch out ideas, draw them digitally, create patterns, construct outfits, and also understand the properties of fabrics and materials.

#### Career Opportunities

Fashion Designer, Product Developer, Production Manager, Pattern Maker, Fashion Illustrator, Design Room Coordinator, Pattern Maker's Assistant, Dispatch Room Coordinator, Cutter, Textile Designer.

### Programme Outline

#### Year 1

- › Textiles
- › Fashion Drawing and Colour Theory
- › History of Costume
- › Digital Photography
- › CAD1 for Fashion Design
- › Fashion Draping 1
- › Women's Wear Drafting 1
- › Sewing Applications 1
- › Garment and Composition
- › Fashion Draping 2
- › Women's Wear Drafting 2
- › Sewing Applications 2

#### Year 2

- › Advanced Draping and Drafting Techniques
- › Advanced Sewing Techniques
- › Fashion Sketching
- › Project Management
- › Project Workshop
- › Design Research & Development
- › Contemporary Fashion, Styles and Trends
- › Brand Strategy and Identity
- › Mini Collection Workshop
- › Fashion Communication
- › Integrity and Anti-Corruption
- › Psychology of Design & Human Factors
- › Creative Thinking / Bahasa Kebangsaan A

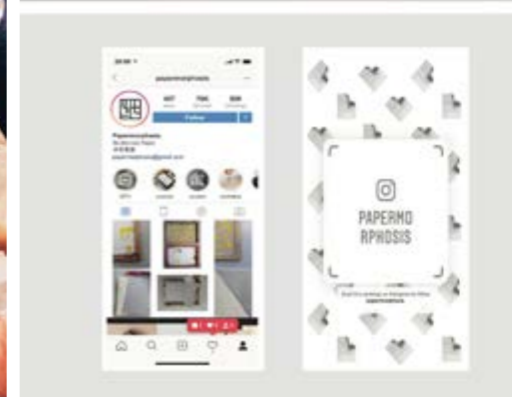

#### Year 3

- › Internship
- › Major Studio Project 1
- › Pattern Aided Design, Grading and Costing
- › Philosophy and Current Issue
- › Law for the Creative Industries
- › Major Studio Project 2
- › Ethics Appreciation and Civilisation / Malay Language Communication 2
- › Entrepreneurship and New Business Development

*Please note that the programme outline is subject to change.*

# RU THE NEXT GRAPHIC DESIGNER

## › BACHELOR OF GRAPHIC DESIGN (HONOURS)

### Programme

**Code**  
MQA/FA 0541  
KPT/R2/213/6/0310  
(08/2029)

### Duration

3 Years  
(Full Time)

### Intakes

January, May  
and September

The focus of the Bachelor of Graphic Design programme is on the job market. Students will graduate with a strong portfolio of practical work and will be industry-ready to produce effective materials for print or online publishing. The course starts with a foundation period in which students will learn about design principles, drawing skills, typography, creativity, and idea development. Students will improve their software knowledge by doing practical work throughout the course using the Adobe Creative Suite. They will then learn how to apply their designs on print, digital, or interactive platforms with the right media.

### Career Opportunities

Art and Creative Director, Brand Identity Strategist, Print and Editorial Specialist, Packaging Designer, Designpreneur.

### Programme Outline

#### Year 1

- › Principle of Design
- › Typography
- › Visual Studies and Exploration
- › 20th Century Design and Culture
- › Digital and Gen-AI Image Processing
- › Drawing For Designers
- › Digital Illustration and Visual Storytelling
- › Ethics Appreciation and Civilisation / Malay Language Communication 2
- › Print Media and Content Design
- › Screenplay and Storyboarding
- › Creative Thinking/ Bahasa Kebangsaan A
- › Web Design

#### Year 2

- › Project Management
- › Brand Strategy and Identity
- › Digital Photography
- › Information Design and Data Visualisation
- › Philosophy and Current Issue
- › Integrated Design Project
- › Motion Graphics
- › Elective 1
- › UI / UX Design
- › Environmental Graphic Design
- › Social Media Advertising and Design
- › Packaging and Display Design
- › Sustainable Design

#### Year 3

- › Final Major Project 1
  - › Graphic Design and Society
  - › Design Research
  - › Entrepreneurship and New Business Development
  - › Final Major Project 2
  - › Professional Practice
  - › Law For The Creative Industries
  - › Integrity and Anti-Corruption
  - › Industry Experience
- Electives**
- › Business Communication
  - › Emotion and Motivation
  - › Psychology of Design & Human Factors
  - › Applied Business Challenges

Please note that the programme outline is subject to change.

RU THE

# RU THE NEXT INTERIOR DESIGNER

## THE RE.NYO COFFEE ZONE CAFE

### COMBINATION OF RENAISSANCE & NYONYA Renaissance Wall Design & Nyonya Tiles Flooring

The concept mainly focus on the beauty of the cultural combination, how dare the Renaissance architecture style could match to the traditional Nyonya architecture style. Based on these two cultures style to create a cafe, also the whole new atmosphere for the environment.

The flooring is a combination of the Nyonya tiles and concrete. Concrete material is a trend of new generation that people normally use and Nyonya tiles represented traditional. Thus both of the materials match well.

The interior wall is using the classic Renaissance wall design, which to stand out the interior atmosphere.

Instead of putting the Renaissance wall inside, there is some framed lines hanging on the wall, which to create a combination between these two cultures elements.

Renaissance and Nyonya architecture style are both significant and important architecture style which have an extraordinary influence. In new generation, people often use these two styles style in designing the interior spaces, people learn the element of them to create furniture as well.

John Foo // 201510030  
Interior Design

## BACHELOR OF INTERIOR DESIGN (HONOURS)

### Programme

#### Code

January, May  
and September

The Bachelor of Business Administration is a full-time three-year degree programme that focuses on producing professionals capable of applying social and ethical responsibilities, analytical skills, competitiveness and entrepreneurship in business. An important feature of this business programme is the requirement of a final year project (FYP) and a professional (internship) attachment. These together will bring reflective and analytic learning experiences to students and further strengthen their creativity and managerial skills with a capstone Strategic Management module.

### Career Opportunities

Sales & Marketing Senior Executive, Banking Consultant, Customer Relationship Manager, Finance Manager, Warehouse Manager, Logistics & Supply Chain Manager, Retail Manager, Business Development Manager.

### Programme Outline

#### Year 1

- › Business Communication
- › Statistics
- › Fundamentals of Management
- › Marketing
- › Financial Accounting
- › Information Technology Essentials
- › Fundamentals of Finance
- › Business Mathematics
- › Creative Thinking/  
Bahasa Kebangsaan A
- › Integrity and Anti-Corruption
- › Microeconomics
- › Quantitative Methods
- › Organisational Behaviour
- › Business Law

#### Year 2

- › Ethics Appreciation and Civilisation / Malay Language Communication 2
- › Macroeconomics
- › Leadership and Innovations
- › Consumer Behaviour
- › Marketing Management
- › Entrepreneurship and  
New Business Development
- › Applied Business Challenges
- › Operations Management
- › Strategic Management
- › Research Methods
- › Philosophy and Current Issue
- › Managerial Accounting
- › Business Analytics
- › Human Resource Management
- › Introduction to  
Supply Chain Management

#### Year 3

- › Final Year Project I
- › E-Marketing Strategy
- › Financial Planning
- › Specialisation Module 1
- › Ethics and Organisation
- › Final Year Project II
- › Specialisation Module 2
- › Specialisation Module 3
- › Professional Attachment

- › Marketing
- › Statistics
- › Fundamentals of Management
- › Creative Thinking / Bahasa Kebangsaan A
- › Ethics Appreciation and Civilisation / Malay Language Communication 2
- › Financial Accounting
- › Fundamentals of Financial Management
- › Business Mathematics
- › Information Technology Essentials
- › Quantitative Methods
- › Financial Accounting Practice
- › Organisational Behaviour
- › Microeconomics
- › Business Law

#### Year 2

- › Computerised Accounting
- › Accounting Information Systems
- › Macroeconomics
- › Financial Accounting and Reporting 1
- › Management Accounting 1
- › Taxation 1
- › Business Research
- › Financial Accounting and Reporting 2
- › Management Accounting 2
- › Commercial Law
- › Human Resource Management
- › Corporate Finance
- › Financial Accounting and Reporting 3
- › Ethics and Organisation
- › Audit and Assurance 1

#### Year 3

- › Financial Accounting and Reporting 4
- › Strategic Management
- › Management Accounting 3
- › Taxation 2
- › Integrity and Anti-Corruption
- › Philosophy and Current Issue
- › Accounting Theory and Practice
- › Entrepreneurship and New Business Development
- › Audit and Assurance 2
- › Professional Attachment

Please note that the programme outline is subject to change.

## › BACHELOR OF SUPPLY CHAIN MANAGEMENT (HONOURS)

### Programme

**Code**  
MQA/FA 5069  
KPT/R/345/6/0765  
(04/2025)

### Duration

3 Years  
(Full Time)

### Intakes

January, May  
and September

The Bachelor of Supply Chain Management programme equips students with advanced knowledge and practical skills in logistics operations and supply chain management, including areas such as shipping and terminal operations; inventory control; materials management; regulations for international operations as well as management techniques and best practices. With the increasing globalisation and the importance of highly-performing value chains, logistics management becomes of utmost importance in modern business.

### Career Opportunities

Inventory Specialist, Supply Chain Analyst, Supply Chain Consultant, Buyer/Planner, Capacity Planner, Production Analyst and Fleet Manager

### Programme Outline

#### › Year 1

- › Business Communication
- › Statistics
- › Fundamentals of Management
- › Marketing
- › Creative Thinking/  
Bahasa Kebangsaan A
- › Financial Accounting
- › Fundamentals of Finance
- › Business Mathematics
- › Information Technology Essentials
- › Microeconomics
- › Quantitative Methods
- › Organisational Behaviour
- › Business Law
- › Integrity and Anti-Corruption

- › Introduction to Logistics
- › Philosophy and Current Issue
- › Applied Business Challenges
- › Operations Management
- › Strategic Management
- › Research Methods
- › Business Analytics
- › Purchasing Management
- › Introduction to Supply  
Chain Management
- › Transportation Management
- › Human Resource Management

#### › Year 3

- › Freight Law
- › E-Supply Chain
- › Inventory Management
- › Final Year Project 1
- › Ethics and Organisation
- › Warehousing and Material Handling
- › Customs and Freight Forwarding
- › Final Year Project II
- › Professional Attachment

*Please note that the programme outline is subject to change.*

# RU THE NEXT PSYCHOLOGIST

## › BACHELOR OF PSYCHOLOGY (HONOURS)

### Programme

**Code**  
MQA/FA 0528  
KPT/R2/311/6/0010  
(03/2029)

### Duration

3 Years  
(Full Time)

### Intakes

January, May  
and September

Our undergraduate programme in Psychology is designed to educate students in different areas of psychology. The course begins with the fundamentals of psychology so that students develop knowledge and understanding of the concepts, theories and practices of psychology. Then as the student progresses through the course these fundamentals are built upon, extended and applied to cover more specialised areas of psychology, for example, human resource management, marketing and branding, health services and education.

### Career Opportunities

As psychology is the study of human behaviour, psychological knowledge can be applied to understand and solve problems in a variety of professions, from school teachers to managers; from public relations to advertising. Many psychologists are employed in some kind of therapeutic role, for example clinical psychologists or counsellors. Many also conduct scientific research in universities or other academic settings. However, it is important to note that in order to work as a specialist psychologist, for example an educational psychologist, forensic psychologist or clinical psychologist, further training will be required.

### Programme Outline

#### › Year 1

- › Introductory Psychology: Methods and Social
- › Emotion and Motivation
- › Child and Infant Psychology
- › Learning Studies
- › Ethics Appreciation and Civilisation / Malay Language Communication 2
- › Philosophy and Current Issue
- › Introductory Psychology: Cognition and Abnormal
- › Historical Perspectives of Psychology
- › Statistics
- › Psychology of Learning
- › Psychology of Adolescence and Adulthood
- › Organisational Behaviour
- › Abnormal Psychology
- › Creative Thinking / Bahasa Kebangsaan A

#### › Year 2

- › Professional Ethics and Conduct in Psychology
- › Integrity and Anti-Corruption
- › Social Psychology
- › Research Methods in Psychology
- › Cognitive Psychology
- › Individual Differences
- › Introduction to Counselling and Psychotherapy
- › Cross-cultural Psychology
- › Consumer Psychology
- › Psychology of Design and Human Factors
- › Elective 1
- › Biological Psychology
- › Educational Psychology
- › Statistical & Research Methodologies

#### › Year 3

- › Elective 2
- › Thesis 1
- › Psychological Assessment
- › Cyberpsychology
- › Elective 3
- › Neuropsychology
- › Psychology of Aging
- › Thesis 2
- › Professional Attachment

#### Electives

- › Forensic Psychology
- › Psychoanalysis and Arts
- › Business Communication
- › Marketing Management
- › Fundamentals of Management
- › Marketing
- › Business Mathematics
- › Applied Business Challenges
- › Consumer Behaviour
- › 20th Century Design & Culture
- › Visual Studies and Exploration
- › Introduction to Multimedia Technology
- › Information Design and Data Visualisation

Please note that the programme outline is subject to change.

The Raffles University Master of Design is an intensive one-year fully online coursework programme that offers a broad exploration of design studies. It goes beyond theory to practical application in various industries and social contexts. Tailored for individuals passionate about fashion design, graphic design, multimedia design, digital game art, or interior design, the program encourages the development of creative portfolios to showcase skills and originality.

Upon completion, students emerge with the ability to present their work cohesively, demonstrating both theoretical insight and practical proficiency. This programme not only fosters deep knowledge within specific design disciplines but also cultivates adaptability and creativity, essential qualities for success in today's dynamic design landscape. Graduates are equipped to tackle complex design challenges and contribute meaningfully to the evolving field of design with confidence and clarity.

### Career Opportunities

Chief Creative Officer, Executive Creative Director, Art Director, Product Designer Director, Design Director, Advertising Specialist, Fashion Design Manager, Graphic Design Manager, Multimedia Design Manager, Digital Game Art Manager, Interior Designer Manager, Management Consultant

The Raffles University Master of Education programme adopts a mixed-mode approach, integrating coursework and research to provide students with a comprehensive understanding of educational studies. It aims to cultivate reflective and innovative educators by blending theoretical insights with practical applications. Students develop essential skills and innovation to navigate modern education complexities, especially in curriculum design, educational leadership, and technology integration.

Catering to individuals aspiring to roles across various educational sectors, including secondary and tertiary education, professional development training, and nursery education, the programme equips students with enhanced critical thinking abilities, research skills, and a deep understanding of educational theory and practice. Graduates emerge with a solid foundation in traditional educational theories, coupled with the capability to implement cutting-edge teaching and learning methods successfully.

### Career Opportunities

The Raffles University Master of Computer Science programme is a research programme that aims to cultivate computing specialists proficient in cutting-edge technology, digital literacy, and numeracy skills crucial for innovative problem-solving in the field. Through designing, developing, and researching solutions, students address pertinent issues in computer science, enhancing usability and effectiveness.

Ideal for those passionate about digital skills like artificial intelligence, system development, or data analysis, the program enables exploration and research contributing to academia and society. Upon graduation, students are well-equipped to tackle real-world challenges, spearheading innovation and making substantial contributions to the advancement of computer science. Armed with comprehensive knowledge and skills, they are fully prepared to excel in the ever-evolving landscape of this dynamic industry.

### Career Opportunities

Lecturer, IT Project Manager, Software Engineer, Computer Scientist, Computer Systems Analyst, Artificial Intelligence Engineer, Digital Forensics Analyst, Big Data Engineer, Chief Technology Officer, Chief Digital Transformation Officer, Chief Innovation Officer

January, May  
and September

The Doctor of Philosophy in Computer Science is a full research programme designed to nurture proficient computing experts capable of leading research and development (R&D) initiatives across diverse realms within computer science. Tailored for students passionate about digital and technology skills, including but not limited to artificial intelligence, data analysis, computer vision, and more, the program equips them with robust knowledge and digital proficiency.

Students will delve deep into advanced theories and technologies, facilitating a comprehensive understanding of research issues. They will engage in rigorous research, crafting original solutions and creatively justifying their approaches. Upon programme completion, students will showcase not only research excellence but also an entrepreneurial spirit, coupled with a steadfast commitment to lifelong learning in the ever-evolving landscape of computer science.

## Career Opportunities

Data Scientist, Research Scientist, Computer Science Professor, Systems Analyst, IT Specialist, Machine Learning Engineer, AI Consultant Usability Analyst, Business Intelligence Consultant, Chief Information Technology Officer

## Programme Educational Objectives

- 1 › Computing experts who are competent with a strong knowledge and digital skills in computer science to foster R & D of new knowledge in the areas of study.
- 2 › Computing experts who will be able to act autonomously, uphold the ethical conduct, integrity, and demonstrate behaviour that is consistent to professional practices.
- 3 › Computing experts who will be able to lead in their areas of expertise, interact and communicate effectively with the stakeholders.
- 4 › Computing experts who will be able to demonstrate entrepreneurial mindset and advocate lifelong learning.

## Programme Outline (Full Time)

### › Year 1 - Year 3

- › Research Methodology
- › Directed Readings and Research
- › Doctoral Thesis

### › Typical Area of Research

- › Artificial Intelligence (AI)
- › System Development
- › Human Computer Interaction
- › Embedded Systems and Applications
- › Computer Vision and Image Processing
- › Data Analytics

Please note that the programme outline is subject to change.

The Doctor of Philosophy in Education is a full research programme meticulously crafted to cultivate a profound understanding and synthesis of knowledge within the diverse realms of education. Students will excel in communication, adeptly disseminating research findings, and engaging stakeholders, both within and beyond academia, to foster collaboration and advance educational practices. Ideal for those interested in education leadership, curriculum design, or learning technology, students will contribute to academic knowledge.

Upon completion, students will showcase a comprehensive grasp of a specific educational area, integrating insights from contemporary research. Equipped with refined research skills, graduates will be poised to drive meaningful change in education. Whether exploring innovative teaching methods or examining the role of sociolinguistics in learning, they will prioritise excellence and societal impact, thereby enriching the landscape of education for generations to come.

## Career Opportunities

School Administrator, Educational Consultant, Instructional Coordinator, Teacher Trainer, Professor / Lecturer, Educational Researcher, Curriculum Developer, Instructional Designer, Education Policy Analyst, Educational Technology Specialist, Educational Programme Evaluator, Director of Academic Support Services

## Programme Educational Objectives

- 1 › Demonstrate a comprehensive understanding and the synthesis of knowledge in the field of Education.
- 2 › Able apply a significant range of advanced and specialised skills and be able to act autonomously, professional and ethical practices in the planning and implementation of research.
- 3 › Master numerical skills and research methodology, encompassing both quantitative and qualitative techniques and digital skills in educational setting.
- 4 › Demonstrate ability to interact and communicate internally and externally in creative concepts or practices of educational research.
- 5 › Demonstrate entrepreneurial mindset in progressing their career and profession.

## Programme Outline (Full Time)

### › Year 1 - Year 3

- › Research Methodology
- › Thesis

### › Typical Area of Research

- › Educational Technology
- › Teaching and Learning in Higher Education
- › Management and Leadership in Education
- › Educational Psychology
- › Curriculum, Instruction and Assessment
- › Mathematics Education
- › Learning Technology
- › ESL Curriculum and Instruction
- › Bilingual, Multilingual, and Multicultural Education
- › Sociolinguistics
- › Education & Society

# › CENTRE OF PROFESSIONAL DEVELOPMENT

The Centre of Professional Development (CPD) department solely focuses on working with students to assimilate them gradually into the industry through

- › Projects
- › Professional Attachments (internship)
- › Industry Research
- › Exhibitions
- › Competitions
- › Workshops
- › Career and Professional Development

RU CPD actively seeks the opportunity to collaborate with industry partners. CPD always invites industry partners to share their industry insights through seminars or workshops to prepare our students to be industry-ready. We cultivate our students with professional development skills and provide resources to support them in future careers. By forging an extensive strategic alliance with the industry, our team at CPD provides a seamless interface between industries and our students, opening a world of career opportunities for them.

Besides, CPD also assists Raffles students to seek for their Professional Attachment (internship) opportunity. CPD will provide internship briefing and sharing sessions for the students before beginning the stages of the internship. CPD will also guide them until the students finish their internship. With the intricate knowledge of the industry, we are able to maximise our training to ensure a constant flow of competent professionals into the industry. In addition, our students are able to find jobs of their choice. In this way, we fulfil the career goal of our students and cater to the needs of the industry.

In Raffles University, graduating from RU does not mean the end of the relationship between the graduates and Raffles University. We treat every RU graduate as part of the Raffles Family by working closely with the RU Alumni.

Raffles University Alumni Association helps to maintain the relationship with the RU Alumni. It is compulsory for graduates of Raffles University to sign up to be a part of Raffles University Alumni, and they are always invited to RU to share their insights.
